TOURNAMENT COVID 19 GUIDELINES

Prepare for soccer like you are going to school: Parents conduct a daily temperature check for low grade fever (>100.4.) before activities.

If you have a fever, do not attend soccer. Consult your physician.

To comply with New York State and US Youth Soccer guidelines during the Covid-19 pandemic, we must be able to track every player and know where every participant is and who they encountered while attending. Team coaching staff will be required to track all attendees from their team.

Players should get dressed at home and arrive at the fields ready to play.

Players must have a face mask for use while not participating in activities. Players should only use their own water bottle and should not share any equipment with teammates, coaches, or assistants.

All coaching staff should practice social distancing and wear a mask.

When not actively participating in a game, players should wear a face mask, and maintain social distancing.

Only two spectators will be allowed per player.

All coaches & spectators must wear a mask & practice social distancing.

These guidelines are ever changing and will be updated as New York State*, Monroe County Health Department and U.S. Youth Soccer release more information.*
